Mr. Menn stated that the county board has worked hard and diligent to make sure that we come in with a very low levy and keep the county in good financial standings. Citizens are wanting their taxes to go down. They need to look at the other entities in the county. Other entities in the county need to start doing the same thing and follow in the steps of the county. If citizens want to complain about their taxes being high they need to go talk to the school districts because the county board does a good job at levying money and making it fair for all citizens in this county.
